## **DETAILED ACTION**

This Office action is in response to applicant's amendment received on 16 May 2005.

### ***Drawings***

1. A replacement drawing sheet corresponding to Fig. 5 was received on 16 May 2005. This drawing is acceptable.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The independent claims 1, 11, as amended on 16 May 2005, contain subject matter which was not described in the

Art Unit: 2813

specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

The applicant's original disclosure does not provide support for the feature "the second portion ... having a second thickness that is less than the first thickness" as claimed in the currently amended claim 1, lines 9-11. Also, the applicant's original disclosure does not provide support for the feature "each upper interface section having a second thickness that is greater than ... the first thickness" as claimed in the currently amended claim 11, lines 15-16.

### ***Response to Arguments***

4. Applicant's arguments, see pages 10-13, received on 16 May 2005, with respect to the prior art rejections of claims 1-20 under 35 USC 102 (b)/(e) have been fully considered and are persuasive. Therefore, the prior art rejections based on Nishikawa et al. and on Li et al. have been withdrawn. However, upon further consideration, new grounds of rejection are made under 35 U.S.C. 112, first paragraph, as indicated above.

### ***Conclusion***

5. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2813

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
